"The permit shall be issued subject to Washington Departments of Fisheries and Wildlife screening criteria as outlined in a Hydraulic Project Approval. The Water Resources Act of 1971 specifies certain criteria regarding utilization and management of the waters of the State in the best public interest. Favorable consideration of this application has been based on sufficient waters available, at least during portions of the year. However, it is pointed out to the applicant that his use of the water may be subject to regulation at certain times, based on the necessity to maintain water quantities sufficient for preservation of the natural environment.

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or fail to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Given under my hand and the seal of this office at Washington, this 23rd day of May, 19 90

Christine O. Gregoire, Director
Department of Ecology
